

Generation 67

50nodes
20apps

The scatter plot displays fitness values for two groups: 50 nodes (blue circles) and 20 applications (orange circles). The data points are arranged in a descending curve from left to right. A red 'x' is located in the upper left quadrant, and a black star is located near the bottom of the curve. The plot is titled 'Generation 67' and includes a legend in the top right corner.
