

Generation 66

50nodes
20apps

The scatter plot displays fitness values for 50 nodes and 20 applications. The data points are colored blue and orange. A red 'x' is located at the top left, and a black star is located at the bottom left. The plot shows a sharp decline in fitness from left to right, with a red 'x' marking a point at the top left and a black star marking a point at the bottom left.
