

Generation 2

300nodes
20apps

The scatter plot displays the spatial distribution of 300 nodes (blue dots) and 20 applications (orange dots) in Generation 2. The nodes are primarily concentrated in a dense cluster at the bottom right, with a smaller group at the top left. Applications are scattered, with a notable cluster of orange dots at the bottom left and a few others near the top left. A red 'X' is positioned on the left side, and a black star is located at the bottom left.
