

Generation 21

300nodes
20apps

The scatter plot displays fitness values for 300 nodes and 20 applications across generations. The data points are colored blue and orange, showing a general downward trend in fitness values as the generation progresses. A red 'x' is located at approximately (21, 0.0001), and a black star is located at approximately (21, 0.00005).
